V-Nails

Revolutionary new v-nail which is made for Mitre Mite, AMP & Alphamacchine equipment. There are excellent benefits to this product. This nail is made of a harder, sharper steel and is less expensive too!! You can lower the air pressure (approx. 10-15 psi) and extend the life of your machine. Only one v-nail required, no need to carry hard or soft wood nails, this one does it all...

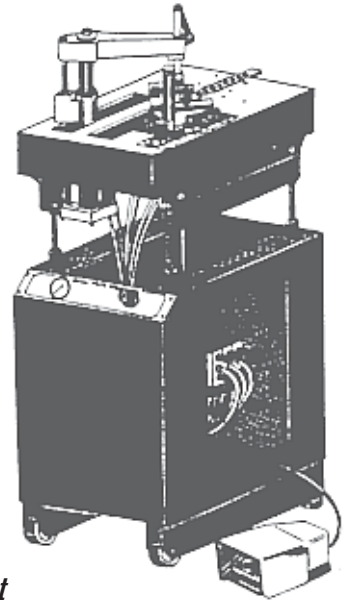

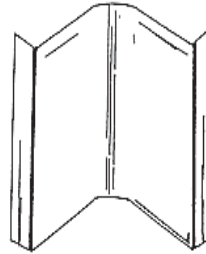

Used in Itw Amp and Euro Machines

V-7 7mm v-nails 5000 / box

V-10 10mm v-nails 3000

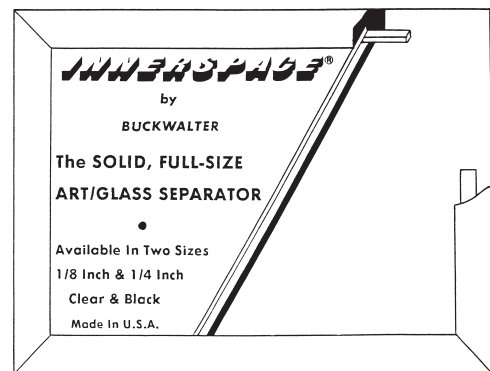

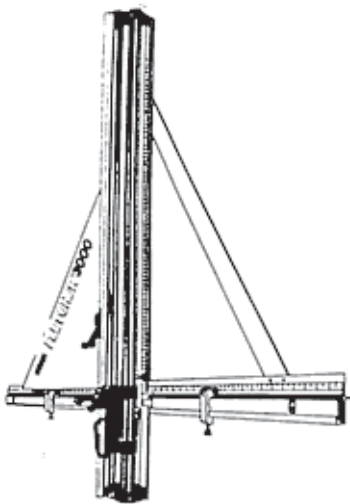

V-12 12mm v-nails 3000

V-15 15mm v-nails 2000

*V-Nail frame
joining equipment*

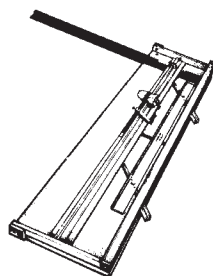

*Fletcher 3000 Glass, Mat, Plexi Cutter
60"...best way to cut glass, plexi and to
size your mat & foam boards*

*Innerspace & Econospace .. art and glass spacer
available in 1/16", 1/8", & 1/4" widths....Clear or
Black....*

Professional Mat Cutting Systems

V-Nail Equipment

U-200 is the Manual Version of the most popular v-nailer...very simple to use and affordable....

The U400 Mitre-Mite formerly known as the VN42 and vn44 was designed for ease of operation and is well suited for assembling larger frames. This machine comes with a height adjustable base and has a convenient tilt. It can be operated from the front or back and has a dual stage foot pedal which allows the Framer to see if the corner is properly aligned before nailing. After the Framer sets the stops, the hand lever is then used to position the nail head for driving or stacking v-nails anywhere along the frame joint. Pneumatic operation..

The U300 Mitre-Mite formerly known as the vn 2+1 or Minigraf 3 This bench top frame assembly machine is ITW AMP's most popular model with the custom framer. This machine is compact and well constructed, built for many years of trouble free operation. This pneumatic machine allows you to set the front and back stops for v-nail operation. The frame is then moved across the nail head and v-nails can be driven or stacked anywhere along the frame joint. Other features include a pneumatic load / feed system to eliminate jams, "soft clamp" pneumatics for damage free joints, and a "quick change" hold down to fit most profiles.

3M Sprayway Tru Vue

Super 77 : 3M Professional grade multi-purpose adhesive. Fast drying for a wide range of mounting applications.

SPRAY MOUNT : 3M A slower drying, clear adhesive, that allows lifting to smooth or reposition work.

VAC-U-MOUNT : 3M Made for use with vacuum frame mounting systems.

Sprayway # 88 : A High Quality Industrial Spray Adhesive Bonds Light Weight Materials : Fast Tack , Long Tack , High Coverage , Repositional.

Sprayway # 945 : Makes everything glide and slide with no greasy mess. Wet lubricant that dries instantly. Keeps all your equipment in excellent shape.

Sprayway # 204 : Matte Fixative. Odorless - workable. Provides clear, permanent, waterproof protection. Dries in seconds to a matte finish which may be worked over. Use on pastels, charcoal, chalk, pencil, ink, water colors and casein.

Sprayway # 201 : Plastic Spray Clear Fixative. Protects artwork, photographs, proofs, layouts, blueprints from smudge, smear, grease and moisture. Contains UV Protectant.

Sprayway # 40 : Glass Cleaner The picture framer's favorite. It contains no ammonia, no acids; leaves no film , no residue, no streaks.

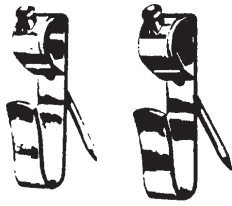

Sprayway # 50 : A superior glass cleaner guaranteed not to streak or leave a film. Alcohol base, will not damage artwork.

Sprayway # 848 : Plastic Cleaner cleans any plastic surface. Is anti-static , anti-fog, fast drying.

Ultra Lite : Glass and plastic cleaner has been specially formulated to work effectively on all glass plastic and specialty glass. It is the most effective cleaner in the industry !! UL-SP17 17 oz bottle

Tru Vue : Premium Clear Glass Cleaner 26oz bottle..... #TVPC Gallon size available..

Dry Mounting Products

BIENFANG COLORMOUNT : is a permanent , dry mounting adhesive tissue for low temperature bonding (175-200 degrees) of resin-coated photos, glossy posters, and regular papers to a wide range of mounting boards. Its breathability makes it ideal for non-porous or high moisture content materials...

BIENFANG RAGMOUNT : is a heat activated adhesive designed for digital fine art prints and traditional dry mounting. Guaranteed color stability and bond integrity. A low melt adhesive with a 100% cotton rag tissue carrier...

BIENFANG FUSION 4000 : a clear 100% adhesive formulation and specialized processing creates the cleanest , purest adhesive film available. An easy and even flow of underheat (170 degrees) solves the problem of mounting fabrics and other textured surfaces...

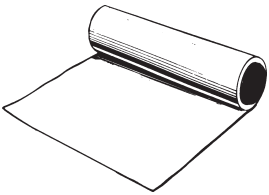

BIENFANG BUFFERMOUNT : is the safest most versatile mounting tissue available. It is removable and features an alkaline - buffered core. Very low bonding temperature of 160-190 degrees...

BIENFANG RELEASE PAPER : is a re-usable, protective overlay made of smooth, white paper, coated with silicone. It is necessary for dry mounting and laminating and keeps the press clean...

BIENFANG RELEASE BOARDS : are durable , reusable release boards , silicone coated on both sides. Release boards may be used in place of Release Paper with the added advantages of added durability and ease of handling...

BIENFANG TACKING IRONS : have been designed to tack material into place to prevent shifting while processing. A pre-set , self regulating control for safe operation and long life...

New Techmount Mounting Tissues

NTMT is a porous , high quality permanent dry mount tissue that features D&K Group's revolutionary Super Stick adhesive system. NTMT activates at 160 degrees F and offers a neutral pH that is ideal for mounting fine art prints, papers, and much more.... available in 24.5" , 36.5" , 40.5" and 48.5" widths all 150 ft long rolls.... # NTMT

Dry Mounting Foam Boards

KOOL TACK

The original drymount foam board that activates at 150 degrees F. to 160 degrees F. in 15 to 20 seconds

Acid Free adhesive

Tougher board more resilient to dents

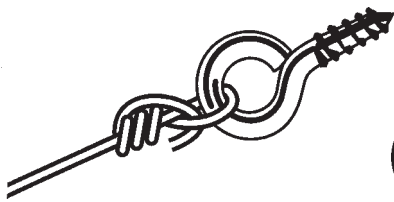

Smoother surface

More resistant to warping

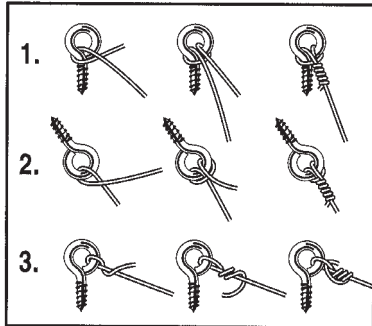

Does not require any dry mounting tissue

Kool Tack Foam Boards are available in all foam board variants (acid free , standard white and black) sizes 32 x 40 , 40 x 60 , 48 x 96.....

Conservation Mounting Products

Use 1-3/8" corners for most art
L533-0021

Use 1/2" corners for smaller art
L533-0020

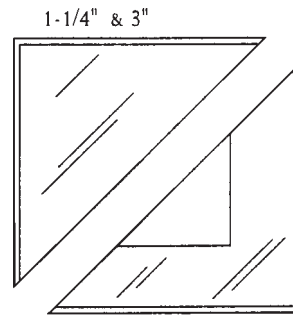

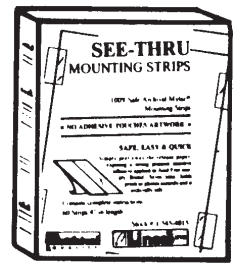

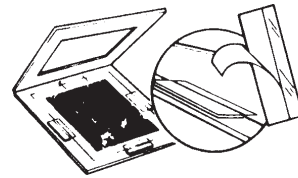

Lineco's popular Mylar Archival polyester, self-adhesive mounting corners. Both feature a non-yellowing acrylic, self-adhesive backing which never comes in contact with the item being mounted. Display and protect: photographs, prints, post cards, trading cards, Baseball cards, and now additional items previously too large to be supported by corners. 240 Per Box.

Lineco Self - Adhesive Mylar Corners
L533-0020 1/2" Mylar Corners
L533-0021 1 3/8" Mylar Corners

See Thru Mounting Strips

Full View

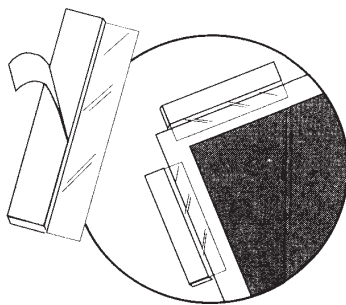

Lineco Polypropylene corners provide extra strength and sizes to accommodate larger art pieces. They are safe, and acid-free. The full-view minimizes the border required to hide the corner under the window mat. Use for light to heavy weight photos and art.

Lineco Self - Adhesive Polypropylene Corners

L533-0022	5/8" Polypropylene Corners 500 pkg
L533-0034	1 1/4" Polypropylene Corners 250 pkg
L533-0035	1 1/4" Polypropylene Full View 250 pkg
L533-0036	3" Polypropylene Corners 100 pkg
L533-0037	3" Polypropylene Full View 100 pkg

See-Thru Mounting Strips

1. Position artwork
2. Cut strips to size.
(1" or less is plenty for most applications)
3. Peel backer from adhesive.
4. Stick to the mat around the art. Leave 1/32" - 1/16" for expansion.

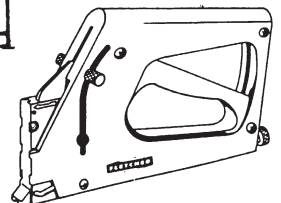

Lineco See - Thru Mounting Strips

Use these mounting strips for safe, hingeless mounting of artwork to mats. Sturdy and safe, Lineco Mounting Strips are made from conservation quality Mylar polyester and acid-free paper with a self adhesive backing strip. Available in our regular 4" strips and now in an economical 12" bulk package. Both can be cut to just the right size for a particular job.

Both lengths sold in packages of 60 strips.

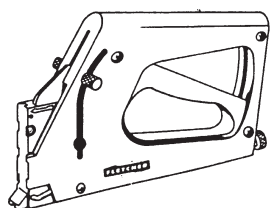

L533-4015 4" See-Thru Mounting Strips
L533-4020 12" See-Thru Mounting Strips
